- C
- C#
- C++

Personal Skills

COMMUNICATION

From working, doing group assignments and running my own business, I have improved my communication skills and am able to communicate in a professional manner and express ideas clearly.

TEAMWORK

School Storage Solutions taught me how to work efficiently in a team. I was able to successfully work in a group to set up the business, this includes setting up fundraisers, making the lockers (from scratch with help from a small manufacturing company) and marketing them to students.

ORGANISATION AND TIME MANAGEMENT

Working, running School Storage Solutions and studying at University has taught me how to balance my workload efficiently.

Personal Statement

Hardworking and motivated student at the University of Auckland, with a passion for programming and technology. I would love the opportunity to work, develop and gain new skills in various areas. I am currently in my third year of study towards a Bachelor of Science majoring in computer science. Alongside my studies, I am running School Storage Solutions, this project has helped me develop my coding, teamwork, communication and organisation skills which I believe are key skills.

Work Experience

CO-FOUNDER

SCHOOL STORAGE SOLUTIONS

Jan 2016 - Present

- Co-founded with business partner whilst I was in high school.
- Created a business website using HTML and CSS
- Conducted market research, through primary/secondary research
